

About Auri

Auri Caboverde Hatheway started her business in June 2003 and earned the use of her first car by October. She gave her mother the car...a childhood dream come true for Auri. She debuted as an Independent Sales Director in November. She began her career to save up enough money to purchase her first home. She purchased that home at the end of November just 4 months after she began her business.

She won the use of her second career car, the Grand Prix in February. In March, only 9 months after she began her MK business she replaced her corporate income and quit her full time job as an Actuary to further pursue her MK career. Since then she has given herself a consistent raise and her highest earnings in **one month have been in excess of \$31,200, including commission and sales bonuses!!** She won her third career car, the Pearl Pink Cadillac in June 2004 and is now driving free and pink. Yes, 3 cars in one year! Auri has been a Star Consultant every quarter and currently has 3 first line offspring Sales Directors.

The beauty of this business is not the cosmetics, but rather that hard work is rewarded and your dreams can come true! There is no get rich quick gimmick because there is work involved, but in this case work is fun, exciting, enriching and rewarding!
